FYI on the status of the Chimney Rock community pit from the BLM.

Emily, can you scan this email to the file? S/49/0019

Thanks,
April

Hi April,

Glad to have you aboard.

Yes we did have a community pit in section 33, S2SWNESE, NWSESE, approximately 60 acres, called the Kyune pit U-075748, that had a little disturbance on it from a couple of different individuals. We have since changed the boundaries to include section 33 S2, 34 SENE, S2, 35 S2NW, SW, S2SE, basically that entire block of BLM in Utah County. I haven't been down there to see it lately, do you know if there has been any activity on it? I assume not, if you are going to close it.

Let me know if you need anything else.

Thanks

Hello Larry,

My name is April and I am the new lead at the Division taking over Utah County for Lynn Kunzler. Lynn is still here, we have just expanded our staff in the minerals program. Anyway, I am writing today to ask if you could verify for me whether or not Chimney Rock located in T11S R9E Section 33 is in fact a BLM community pit? Your lease number is UTU-075748.

We are trying to close this file and I am just in need of verification from the BLM that this is now a community pit.

Thanks for your help.
